### **NOTICE TO ALL FIBRE CROPS PRODUCTS EXPORTERS/IMPORTERS**

**RE: ELECTRONIC PROCESSING OF FIBRE CROPS PRODUCTS PERMITS ON  
KENTRADE TRADE FACILITATION PLATFORM (TFP)**

---

AFA Fibre Crops Directorate (FCD) in collaboration with KENTRADE has automated additional fibre crops products permits (***see attached***) on the Kenya Electronic Single Window System, Trade Facilitation Platform (TFP) in order to improve service delivery to our stakeholders.

In this regard, the Directorate has scheduled to '**GO LIVE**' with effect from **1<sup>st</sup> August, 2023** and cease the manual processing of the fibre crops products permits. From this date, exporters/importers seeking exportation or importation of fibre crops products shall apply for permits on TFP. The permits will be issued per consignment upon approval of such exports/imports.

You are also advised that payments associated with the processing of these permits will be done online through the system.

Thank you.
