## Prices and Grades

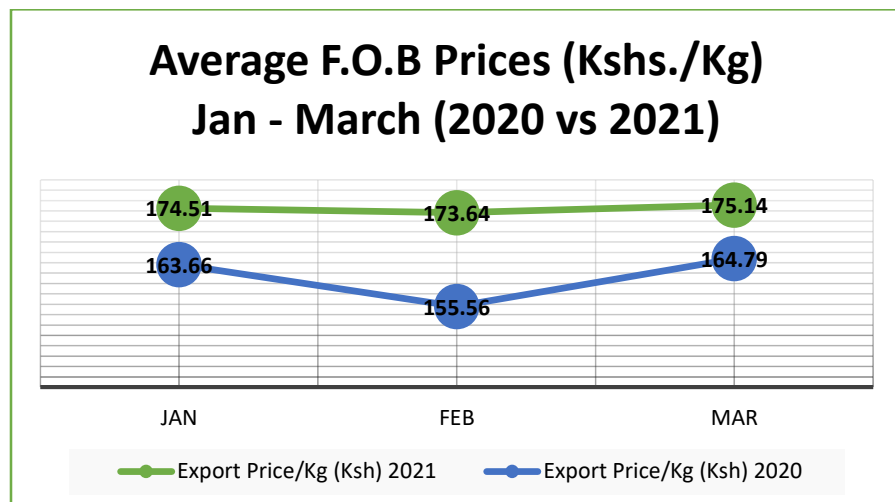

### Prices

During the period under review, the overall average price was **USD \$ 1,589.96 Per MT** (Approx. Kshs 174.48 Per Kg)

The month by month, average price (F.O.B) during the period under review is as shown in *graph 1 below*.

In comparison to the previous year during the same period, prices have increased in the current period by an average of 6% *as seen in graph 1 below*.

This significant increase in price could be attributed to the fact that in the previous period, jitters caused in the market due to the COVID -19 pandemic which was a new challenge then has since normalized in most destinations; in the current period, most of the destination markets have learnt how to cope with the pandemic, hence the vibrancy of the market indicated by the rising in prices due to forces of market demand and supply.
